INAUGURATION OF CUBA'S PRESIDENT

Gomez Backs Amnesty Act as Part of Scheme Against His Successor, Menocal.

Reports from Cuba indicate that there is a wide-spread movement throughout the republic to prevent the inauguration of President-elect Menocal, even at the cost of a revolution.

These advices further suggest that President Gomez, aided by his chief lieutenant, Speaker Farrera, is tacitly adding the anti-Menocal movement by deliberate instigation to the sedition utterances of the liberal press, which is openly inciting revolt in the supreme court does not annul the election of Menocal.

Closely coupled with the suspected plot to overthrow the incoming Menocal administration is the sweeping amnesty act, backed by Gomez, which would liberate thousands of desperate criminals and political prisoners, according to information reaching the State Department. There are nearly 3,000 colored ex-convicts imprisoned following the revolution last summer, who would be freed should the amnesty act be enacted.

Vigorous protests will be made against the proposed liberation of this lawless element on the eve of the new regime, and already representations to this effect have been made to the Gomez government by the State Department.

In the eyes of the Government the amnesty plan is clearly a part of the bold conspiracy to plunge Menocal, a stalwart conservative, into a dangerous situation at the outset of his administration. In following the plot to prevent him from assuming the reins of the Cuban government.

A different situation obtains in Cuba than in Mexico, and for that reason President Taft will not keep his hands off if there is a continuance of the menacing movement against Menocal. A close watch is being kept by American agents on the course of events, and the contents will not be permitted to carry their machinations to an extent that will threaten to disrupt the republic.
